This diagram shows the assembly of a red 1x6 brick onto a white 1x12 brick. The red brick is being placed on top of the white brick, which is already on the structure. The red brick is shown in two positions: one at the top left and one at the bottom right, indicating its placement. The white brick has a 4x6 grid of studs on top. The red brick has a 1x6 grid of studs on top. The assembly is shown in a perspective view, with the red brick being placed on the white brick. The red brick is shown in two positions: one at the top left and one at the bottom right, indicating its placement. The white brick has a 4x6 grid of studs on top. The red brick has a 1x6 grid of studs on top. The assembly is shown in a perspective view, with the red brick being placed on the white brick.
